Our Differentiators

- We have 17 years of communications and data mining expertise as a former approved vendor with Members of Congress. Our user-friendly turnkey ESP has deployed 100+ million emails into inboxes with technical support, built-in templates and robust reporting statistics.
- Data-Clear is teamed with Bobcat Cyber for Breach and Attack Simulation as-a-Service for flexibility, speed and continuity. We are subject matter experts for threat informed defense and US patent CMMC enabler.
- Data Analytics: Data-Clear is partnered with CIEK Solutions with extensive experience in data analytics and handling complex data sets. Our expertise in data-driven decision making and advanced analytics techniques can be valuable for HHS to derive meaningful insights from their data.
- Scalable and Flexible: Clients handle terabytes of data that require scalability. Our team has the capacity to handle big data and design robust cloud-based database systems and web applications that can efficiently store and process vast amounts of information. Our scalability ensures that systems can handle growth and changing needs.
- Advanced Analytics: Clients may seek machine learning, artificial intelligence and predictive modeling. These techniques can assist to uncover patterns, trends and correlations in their data enabling better decision making, resource allocation and policy formation.
- Data Security and Compliance: We handle PII sensitive and confidential data, making data security and compliance imperative. We understand the importance of privacy and follows stringent security protocols while working in the AWS/Azure environment to protect sensitive information to ensure compliance with relevant regulations, data protection laws and regulatory guidelines.
- Custom Solutions: We understand unique requirements and objectives so that our specialized IT team can custom tailor solutions to meet the specific needs, consider data sources, organizational goals, and budget. Our ability to customize ensures that the data design and analysis align with priorities.
- We're the business distributor of the only Made in U.S. nitrile glove manufacturer to handle illicit drug use.

Size: Small Business WOSB EDWOSB

8(a) Certification - #308350

SAM UEI: YQCXCSBW3R3 | CAGE: 7E2S4

Virginia: Small Women and Minority

We accept credit card and purchase cards

Core Competencies

• Cybersecurity Assessments • Advanced Data Analytics • Data Mining & Migration • Dashboard Maintenance • Email Service Provider • FDA's approved nitrile exam glove tested against fentanyl.

Past Performance

The White House – Email list scrub and National Change of Address to input database file, 2016
